Dear Dr. Nielson:

Enclosed is an additional updated partial computer printout of the water quality data for Coastal States' Skyline Coal mines project. The tabulated data and statistical summaries herewith submitted cover a period through the second quarter of 1991 but include only those pages which have been changed during the quarter. These pages were inadvertently omitted from the August 21, 1991 transmittal.

These updated pages are replacements for those pages previously submitted and should be appropriately inserted into your existing loose-leaf document.

Sincerely,

*Keith W. Welch*
